

meet your neighbors

By Kelly Valencia-Aiken, Hawaii Loa Ridge resident

let's celebrate **JARROD** *Kopczynski*

The residents of Hawaii Loa Ridge offer their congratulations to Jarrod Kopczynski!

In the spring of 2020, Greg Kopczynski and Eiko Murakami's son, Jarrod, graduated from Purdue University with a Bachelor of Science degree, majoring in mathematics and minoring in economics. With a passion for learning, he is continuing his education by pursuing a Master of Science in Economics while interning remotely for the State Government of Indiana.

Jarrod graduated from Cupertino High School in Cupertino, CA, in 2016. Before high school, he was enrolled in the Japanese Language School of Raleigh, and he was later enrolled in the San Francisco Japanese School. During his time in college, he has been a member of the Alpha Lambda Delta Phi Eta Sigma Honor Society. He has worked as a public policy advocate, as well as working with Habitat for Humanity, Circle K International, and offering tutoring services.

Jarrod enjoys learning and has an appetite for religious studies and econometrics. Some of his hobbies include baseball, classical and rock music, and Russian literature with favorites by Tolstoy and Dostoevsky. He enjoys playing the piano and the drums and is currently taking lessons from Dragon Beat to learn to play the Taiko, which is the Japanese drum. Jarrod also likes relaxing to the Beatles, U2, and Led Zeppelin, and changing up his playlist with Chopin, Bach, and Tchaikovsky.

With his love of politics, Jarrod plans to work in the government on the state or federal level, particularly in policy and data analytics. He desires to testify for as many bills as is possible and to craft bills with other politicians. He also aspires to become an author and to open his own online business sometime in the future.

Please join us in congratulating Jarrod on his graduation!
